DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Monday, 02 September 2024 at 06:11 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Despite widely warm or locally very warm conditions across the UK, areas of heavy rain and rather extensive cloud cover contribute to Low levels of air pollution on Monday.

Tomorrow: Low levels of air pollution are expected to persist on Tuesday with variable cloud amounts and occasional rain or showers.

Outlook: Air pollution is likely to remain Low for the majority of the period between Wednesday and Friday, but may become locally Moderate in the south during Friday.
